UFO Radiance Fiber Optic Chandelier

The UFO Radiance is a popular addition to our chandelier range. Whether being installed in a residential property, bar, lounge, hotel lobby or commercial setting, the UFO Halo will add a decorative element to any space, large or small.

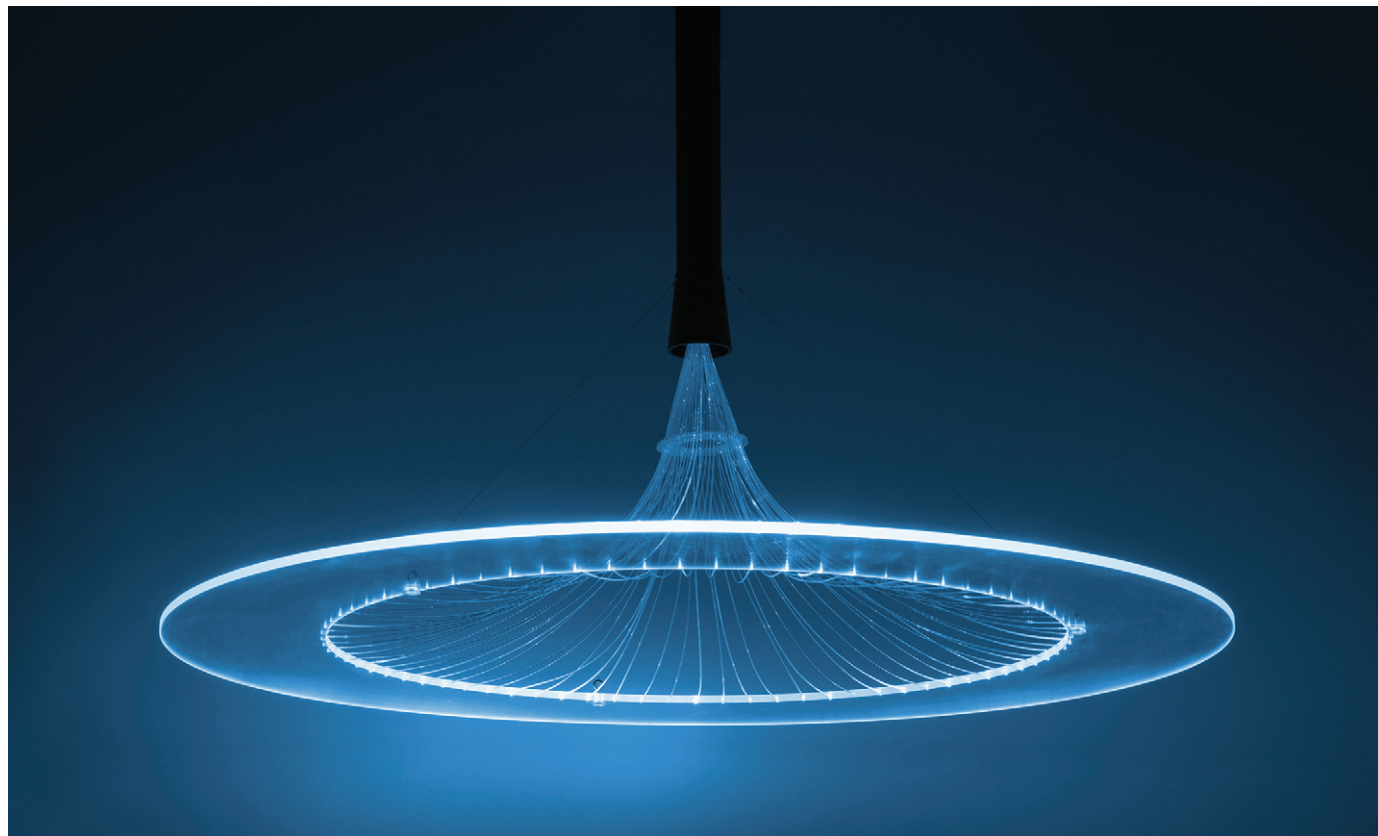

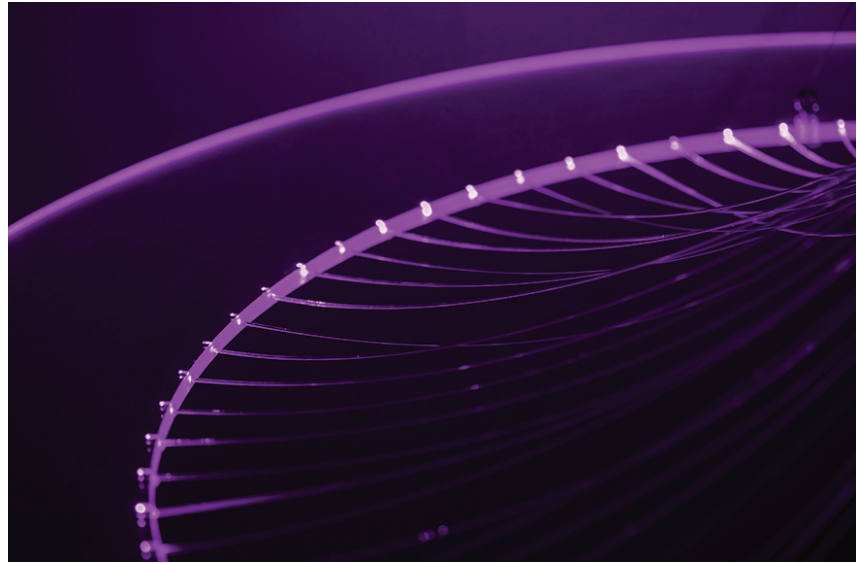

Its streamlined structure comprises of a large circular base spanning 1m (3.28ft) in diameter and cast from clear acrylic.

Seventy tails of UFO end lit PMMA fiber are set into the acrylic and emit a glow of light throughout the perimeter of the base for a truly striking halo-like effect.

A black tubular shaft measuring 50mm in diameter houses the tails of end lit fiber and connects them to a UFO illuminator[*]. Supplied with the UFO Radiance is a top hat mounting mechanism that enables the chandelier to be secured to the ceiling.

PRODUCT SPECIFICATION

ORDERING CODE	DIAMETER	NO. OF TAILS	TAIL LENGTH TO ILLUMINATOR [*]
RAD-1000	1 metre (3.28ft)	70 tails of 1.5mm PMMA fibre	3 metres (9.84ft)
