## Ionic Interface

Rev. C4

The Ionic constant voltage Interface is a compact 12V unit providing a connection interface between the Ionic track and Ionic LED fittings and other proprietary 12V constant voltage dimmable drivers.

The Ionic interface is also used in systems where no global dimming is required.

The interface enclosure has a 'Power On' red LED and is suitable for indoor use only.

### GENERAL INFORMATION

Product Name	UFO Ionic Interface
UFO Product Code	UFO IONIF-CV-DC-12-XX
Description	Constant Voltage Interface
Input/ Output Voltage	12V DC
Number of Ionic Fittings	With 60W PSU: SX Fitting - 31 / MX Fitting - 17 / LX Fitting - 14  With 90W PSU: SX Fitting - 48 / MX Fitting - 28 / LX Fitting - 25
Connection	WAGO lever terminal
Accessories	None
IP Rating	IP20 - internal use only
Material & Finish	ABS plastic / black
Dimensions	80mm x 40mm x 20mm 3.2" x 1.6" x 0.8"
